# Vision

Engaging the community in a celebration of locally grown food.

## Mission

- Establish a financially and ecologically sustainable urban farming system
- Develop opportunities for hands on, leading edge formal and informal learning in Urban Organic Farming
- Provide learning activities that enhance the capacity to make choices between a range of organic agricultural systems rather than a ‘one system is best’ approach
- Maximise underutilised private and public land for food growing
- Develop an urban farming model based on empirical research that can be replicated by other communities.

## Objects of the Company

Constitution of Millen Farm Ltd

The objects of the company are to develop a world class urban agriculture centre that builds a local food culture through:

- (i) establishing a financially viable not-for-profit urban agriculture centre;
- (ii) embodying ecological sustainability into all agriculture practices used;
- (iii) developing opportunities for hands-on formal and informal learning in urban agriculture;
- (iv) developing, supporting and mentoring new farmers working towards operating financially sustainable urban farms;
- (v) becoming a leader in research and development on urban agriculture;
- (vi) maximising underutilised private and public land for food growing;
- (vii) developing an urban agriculture model that can be replicated by other communities;
- (viii) encouraging local food entrepreneurialism; and
- (ix) being active in drawing the community together to celebrate local food.
